

Champions League 2023 skin version 1.2

Thank you for your interest in this new **animated** skin for the newest Football Manager 2023, released on Sunday November 13, 2022.

Skin got updated on December 22, 2022 to version 1.1

Latest update to version 1.2 per May 1, 2023

Thanks for your donation and your support to my work! This skin is **NOT** available on any forum or Football Manager (fan) website, so it is a skin available only to a select group of people!

This skin was mainly made for my personal use and is tweaked to my personal preferences with additional custom-made panels and graphics, it is optimized for **HD resolutions** (Resolution of 1920x1080 windowed and full screen), other resolutions are not supported there is a higher resolution solution added which isn't perfect but with the adjusted panels supports resolution up to 2560x1440, some users found "zoom" 90-95% to work well with lower resolutions.

I personally always use the "hidden sidebar" option in combination with "windowed full screen" option. Please **always** select the "sidebar icons" option in the skin preferences for the best experience.

This version of the skin is fully compatible with **Football Manager 2023 v23.4.1**

PLEASE: Respect the many hours I spent on creating and perfecting this skin. Don't post this skin on any websites or share with others without my written consent.

This skin wouldn't have been possible without the work of:

Gunzo/Maruemon/DogChacha/FM Nation/Flayus, _Ben_(Statman skin), GIMN (Mustermann skin), Wkdsoul, Dasz8, Pikawa (CFM Skin), Flut skins, EmilDebski(Vitrex skin (2016/2017), SirWill (Clinched Skin, 2017), OPZ, Wozzie, TheBantams/Rick Thorne (Andromeda skin 2018).

Recommended (not included) for use with this skin are:

Facepack of your choice, Logo and kits packs, Cities megapack (showing city pictures in club screens), Stadium/player background packs. The logo pack in the screenshots are my own "ESS v5" logo's, they are available for download at: [ESS v5 Logo's REVIVED !!! \(sortitoutsi.net\)](https://www.sortitoutsi.net)

ALWAYS completely remove any previous version of the skin (version 1.0 or 1.1) prior to unpacking the new skin version. Overwriting an older version of the skin can cause issue. Also make sure to DELETE ANY *.fmf files in your skins folder (could be other skins or skin adjustments) as they are known to cause issue with some portions of my skin (conflicts of coding).

This "README" will answer most of your questions, as the name says, please read the file prior to asking questions (email or PM in "community.sigames.com"), the answer to your question might be in this pdf file. **My email is: a31632@hotmail.com**

Features:

- Edited match intro, (option to bypass the "LICENSED" intro/scoreboards etc.) with option to revert back to the intro used in previous versions
- Datahub section refreshed with tab container for new look/classic look
- Club overview panel with "last 11" pitch with players
- Lots of options to customize the skin (scoreboards, no attributes mod, with/without hidden sidebar/background packs support etc.
- Lots of choices of manager to choose for the main menu (Pochettino, Zidane, Tuchel, Guardiola, Flick, Klopp, Simeone, Conte). As before the coach that won the last Champions League is selected as the default manager (Carlo Ancelotti)

Update 1.2 features:

- Choice between "tabbed container" options in team tactics screen and "original" Tactics screen, used in version 1.0 and Champions League 2022 skin and prior versions.
- Revised Club Vision main screen, designed by GIMN (Mustermann skin), used with his explicit permission, edited to fit in and blend in with my skin
- Added "Pizza" graphics, animated, also designed by GIMN (Mustermann skin) in selectable in both player pop-up screens and player overview panel (see screenshots below)
- Added multiple other Club Vision screens with enhancements and animations
- Team squad panel updated
- Multiple inbox panels updated with more information and changed animations
- Updated scouting card, more efficient use of space and info
- Many other (minor) graphical updates and minor bug fixes

*******Please don't redistribute without my permission, either in original form or in a "tweaked" version*******

Installation instructions:

Extract the 7z file in x:\users\your name)\My documents\Sports Interactive\Football Manager 2023\skins\ Make sure you use the original 7-zip program (WinRAR/Winzip etc. give error messages)

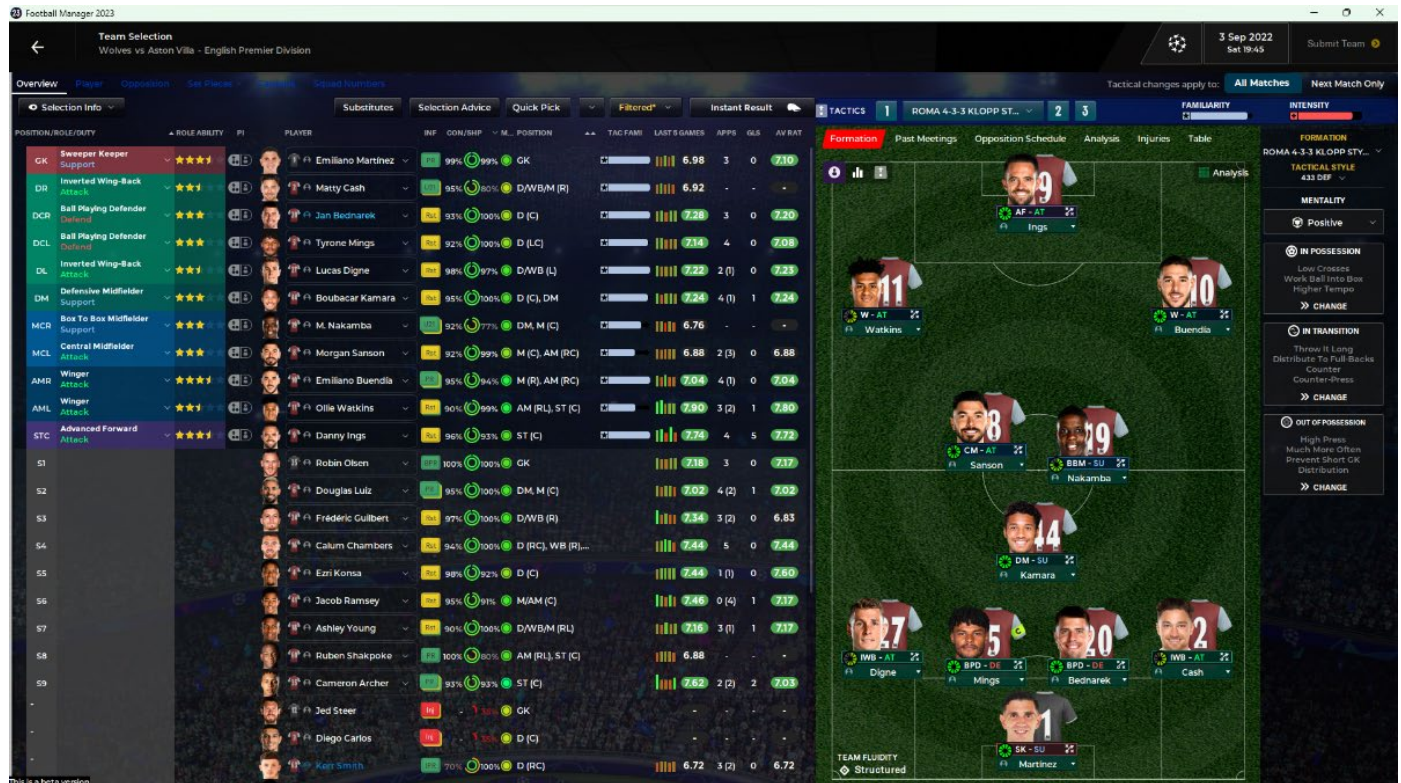

When you extract the 7z file it will automatically create a "Champions League 2023" folder, which contains the skin. Make sure you un-tick "use skin cache", clear the cache and reload the skin.

If you have donated £3 (or equivalent) or more, you will have received the Champions League 2023 skin which includes many graphical enhancements. You can always donate(again) if you think the skin deserves it, your support is as always greatly appreciated!

This skin is optimized for **HD resolutions (resolution of 1920x1080 windowed and fullscreen with icon sidebar), other resolutions/settings are not supported.**

The tactics screen has changed since version 1.1, the screen is now a “tabbed container” and shows an enlarged “team squad”, horizontal “pitch” and additional information in separate tabs instead of all-in-one screen. Some people prefer the new layout, others prefer the “one screen” set up.

For comparison, version 1.0 tactics screen (included in version 1.2 skin download, extract file TACTICS SCREEN NO TABBED CONTAINER.7z in the skin, it will replace a file in the “panels/tactics” and a few files in “panels/cl2023” folder. If you don’t get an “overwrite” prompt you have installed in the wrong place.

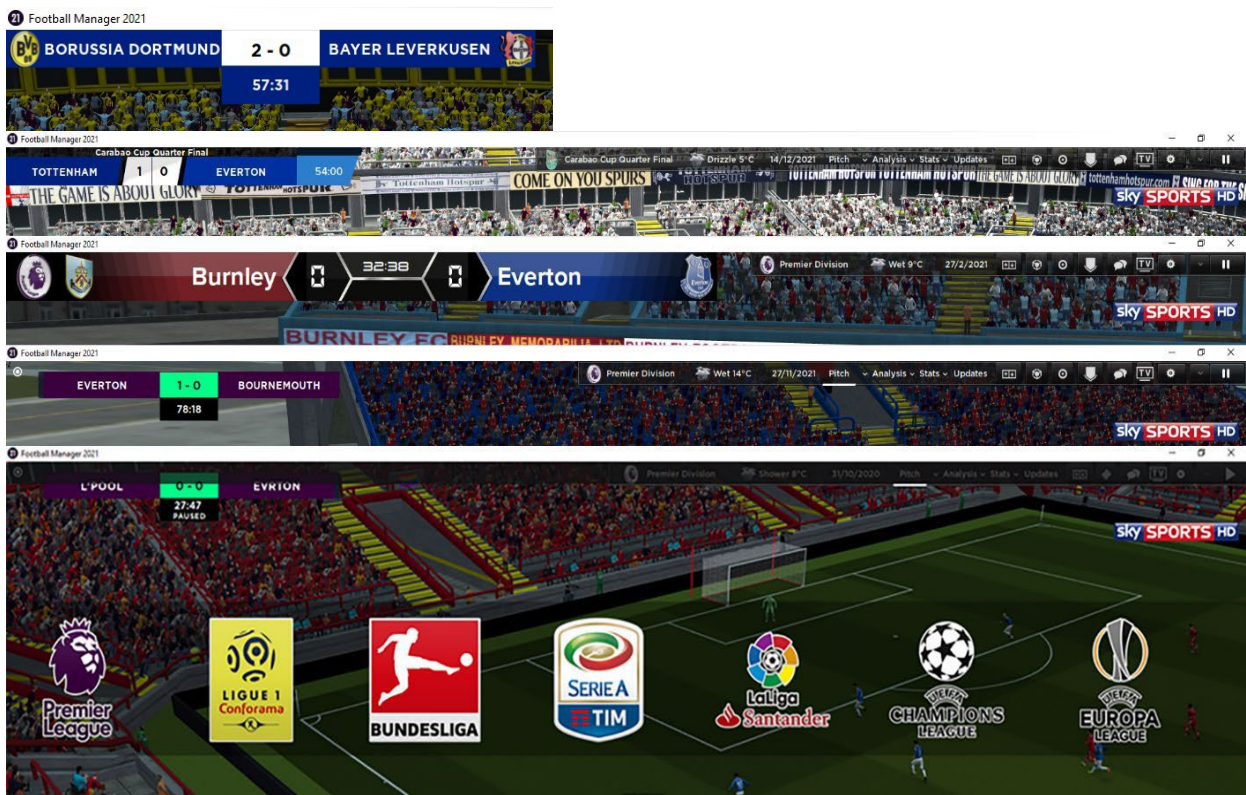

Version 1.1 and 1.2 (with tabbed container):

After replacing the files make sure to untick "caching" in preferences and completely reload the skin.

You also have again a choice between lots of scoreboards. A shown below the standard (small) scoreboard (now replaced in the 2022 version with a newer version and the BIG classic/retro scoreboard and the downloadable "scoreboard selector" scoreboards (screenshots from 2021/2022 version but work and look similar in 2023):

The coding for the scoreboards is all other scoreboards than the standard two are in "**Champions League 2023 1.2 SCOREBOARDS.7z**". Overwrite all files in your skin to switch between "standard (small)"/"retro-BIG" and "scoreboard selector". The graphics for all scoreboards are already included in the skin, with exception of the "scoreboard selector" graphics.

In FM2023 the game generates "LICENSED" scoreboards for a few competitions including UEFA. I have edited the scoreboards and match captions and intros to ONE format, so they look the same in every match as I don't like the small licensed scoreboards. If you prefer to use the licensed scoreboards instead of having the static scoreboard do the following:

Navigate to "panels/match/comps" there you will see a lot of folders and subfolders and some files have the extension: ".LICENSED" (these are the original files used by the game), depending on what you want to change (only scoreboard, only match caption or all) rename ".LICENSED" file to ".xml" files and remove/delete the ones with the same name made by me. If you reload the skin after this it will override scoreboards again for certain competitions and only show the static scoreboard if no licensed scoreboards are triggered.

Additional notes:

Scoreboard selector/floating (small) scoreboard in match screens: (newly added as a separate download)

The "**scoreboard selector**" files were made by "Jovovich/Maruemon" and he has **not allowed** the use of these scoreboards in "paid"/donation versions. I will be able to help you implement these scoreboards in the skin and have them work properly. I also edited the look of the screen so it has an overall better look. Please make sure you follow **all** the instructions below to get it to work:

Step 1: Download the "scoreboard selector files" from here:

<https://community.sigames.com/topic/465306-scoreboard-selector-for-fm2019/>

Step 2: Please read carefully:

Unpack/extract the files from the "Champions League 2023 1.0 SCOREBOARDS.7z" file which includes all 3 versions of the scoreboards that also contains the "scoreboard selector adjustments in a **SEPARATE location** (NOT as last year and as usual in the main folder of the skin), copy **ONLY** the "**graphics**" folder, "**fonts**" folder and the "**panels/scoreboard_selector folders/files**" into the skin.

Do not copy any other files or panels (generic/header, match/match titlebar or global panels) to your skin.

As coding has changed since FM2019/FM 2020 this will create major issues with match/title bars and it will not look as in the screenshots shown here

Step 3: In my separate download you will find an adjusted "match titlebar" panel which needs to be copied into the "panels/match" folder (overwrite the existing file), this one file has all the code in it to get the scoreboards to work perfectly in the skin. Included is also "match title bar score epl.xml" (copy into "scoreboard_selector" folder in panels and overwrite the downloaded version) this new file has an edited clock graphic in it (standard isn't working given changes in FM2023 with colors). **Empty cache and reload skin** and the scoreboard should work fine.

For full names in the scoreboards (instead of short/abbreviated names) copy the below code in each scoreboard selector panel and overwrite the “home team” and “away team” code. Make sure the color of the teams (“black” in this code) gets changed to “white” when needed.

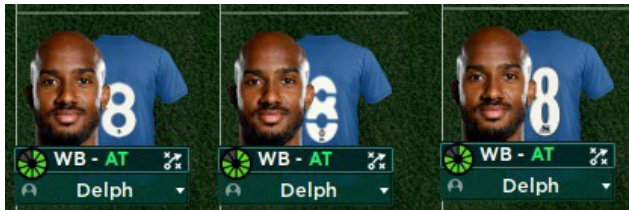

```
<!--home team-->  
<widget class="team_button" id="homN" icon_enabled="false" auto_size="none"  
font="title" size="10" alignment="centre_y,can_scale" click_event="htac"  
navigation_focus_target="false" colour="black" mode="1">  
<record id="object_property" get_property="home" set_property="valu" />  
</widget>
```

```
<!--away team-->  
<widget class="team_button" id="awaN" icon_enabled="false" auto_size="none"  
font="title" size="10" alignment="centre_y,can_scale" click_event="atac"  
navigation_focus_target="false" colour="black" mode="1">  
<record id="object_property" get_property="away" set_property="valu" />  
</widget>
```

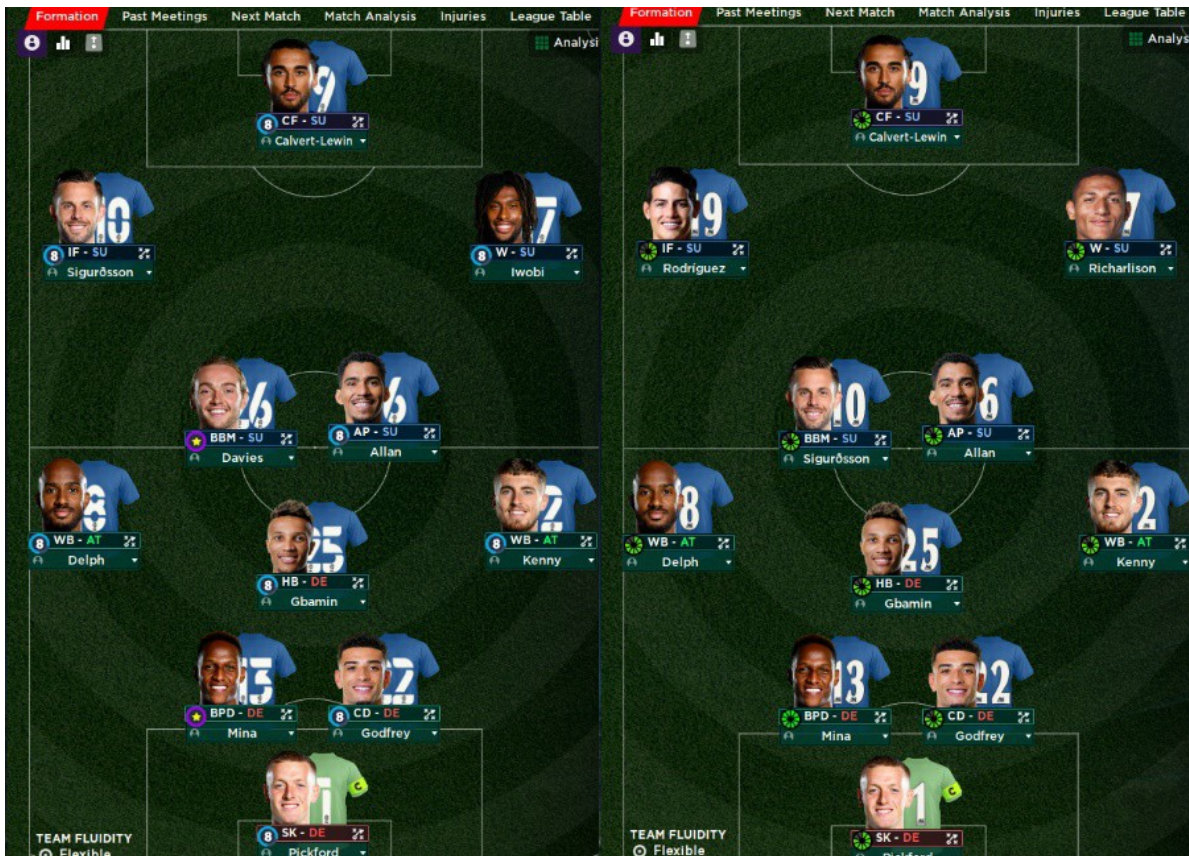

New kit numbers as alternative available:

Replace kits in “pictures/kits/2d/numbers” there are extra folders: “numbers EFL”, “numbers EPL” and “numbers EPL OLD” (currently the default numbers)

(EPL 2020-2021, EFL 2020-2021, EPL OLD compared)

Also shown optional replacement of “PIE Chart” graphics with numbered graphics. These alternative graphics are located in “icons/custom/role rating”, in the “circular alt” folder. Replace thefiles in the “circular” folder and reload the skin to show the alternative graphics

*** Changing manager picture in main menu when starting game:**

The manager showing in the main menu can be changed easily and many options are included in the skin: **(Ancelotti (with alternative), Flick, Guardiola, Simeone, Pochettino, Zidane, Tuchel, Klopp, Conte).**

Rename the manager image of your choice to "manager.xml" (delete the current file prior) and reload the skin and you will have the manager of your choice showing up in the main menu when you start the game.

- * **Resolution:** The skin works best and has been tested in 1920x1080 resolutions (windowed and full screen) with a small sidebar selected and is tested as a "full mode skin" only on PC. Use "zoom" if you are using a lower resolution laptop (90%-95% has been reported to work fine).

*** Autohide/non autohide sidebar:**

For the **sidebar NOT to auto-hide**, navigate to: "panels/client_object" in the skin folder and delete or rename "client object browser.xml" and replace with "client object browser.xml NO AUTO HIDE"

(delete "NO AUTO HIDE" from the file name and reload the skin for the changes to take effect).

*** Using solid backgrounds (instead of background packs) in the skin:**

In this version of the skin, I have set the default version as a "solid background" version, navigate to the "client object browser" folder in the skin and replace the "client object browser.xml" file with a hide/no auto hide or background/no background version (4 versions in total)

After this reload the skin and you will have the changes showing with sidebar and/or backgrounds.

* **Change added SS type kits;**

if you have your own preference for kits in the game; navigate to “graphics/pictures/kits/2d” and you can replace whichever kit content you like. Reload the skin as always to complete the process when done.

* **"Blurring effect":**

If you like to remove this effect from the skin; navigate to "graphics/boxes/dialog/background/paper.xml" and edit this xml. Change "<boolean id="blurred" value="true"/>" the value "true" to "false" and reload the skin as always. This will disable the blurring effect.

* **Background logo in middle of screen (applicable with static backgrounds only):**

to remove the background logo in the middle of the screen, navigate to panels/client_object/client_object_browser.xml and delete the lines 24-29 containing:

```
<!-- Logo -->
<widget class="picture" id="mnpV" image_alignment="centre" scale_picture="false" transparency="0.4">
<record id="object_property">
<integer id="get_property" value="mnpc" />
</record>
</widget>
```

As always reload the skin (make sure "caching" is not ticked) and the logo is gone. If you want to make the logo more (or less) transparent, change the “0.4” value to a different one.

• **Change default newspaper in the “news” section:**

The newspapers in the news section have a lot of tabs, to select different newspaper/website looks from the world. If you want to select a different “newspaper” as a “default” navigate to “panels\competition\competition news panel.xml”.

In line 119 you will see: <container class="tabbed_container" id="gcol" **default_item="skys"** save_session_state="true" dont_set_embedded_title="true" >

Below this code you see all the other newspapers listed that are available in the tabs, so if for example you want to change the default to “Eurosport”, change “skys” in the above pasted code to “euro” and that will load standard if you reload the skin. If you don’t reload the skin this is not needed as it will stay at your preferred newspaper.

* **Opacity default setting: to change the default opacity setting (default value at 10%):**

navigate to "panels\background_selector\backgrounds.xml"
In that xml there is code from 167-207:

```
<!-- overlay sections -->
```

```

<!-- 10% -->
<container class="plain_box" id="10bg" appearance="boxes/overlay/10/10" >

  <layout class="stick_to_sides_attachment" alignment="all" inset="0"/>
</container>

<!-- 20% -->
<container class="plain_box" id="20bg" appearance="boxes/overlay/20/20" hidn="true">

  <layout class="stick_to_sides_attachment" alignment="all" inset="0"/>
</container>

<!-- 30% -->
<container class="plain_box" id="30bg" appearance="boxes/overlay/30/30" hidn="true">

  <layout class="stick_to_sides_attachment" alignment="all" inset="0"/>
</container>

<!-- 40% -->
<container class="plain_box" id="40bg" appearance="boxes/overlay/40/40" hidn="true">

  <layout class="stick_to_sides_attachment" alignment="all" inset="0"/>
</container>

<!-- 50% -->
<container class="plain_box" id="50bg" appearance="boxes/overlay/50/50" hidn="true">

  <layout class="stick_to_sides_attachment" alignment="all" inset="0"/>
</container>

<!-- 60% -->
<container class="plain_box" id="60bg" appearance="boxes/overlay/60/60" hidn="true">

  <layout class="stick_to_sides_attachment" alignment="all" inset="0"/>
</container>

<!-- 70% -->
<container class="plain_box" id="70bg" appearance="boxes/overlay/70/70" hidn="true">

  <layout class="stick_to_sides_attachment" alignment="all" inset="0"/>
</container>

<!-- 80%-->
<container class="plain_box" id="80bg" appearance="boxes/overlay/80/80" hidn="true">

  <layout class="stick_to_sides_attachment" alignment="all" inset="0"/>
</container>

```

hidn="true" means it is not a default setting, 10% is now showing as default as the "hidn=true" code is not there, select the opacity you want to have by default and move the "hidn=true" value to 10% from there, now it should always default to your setting.

Known issues:

- For the custom made “line up intro” (with match intro and pitches/players-kits) to **show always**, please make sure you have selected “comprehensive” or “full match” (not “key” or “extended” as it will only show in “big matches” in these cases). This is **not** a bug, but is a known “issue” with FM23 as it was with FM22/FM21.
- The “logo selector” (in 3D matches) and “background selector” are using similar coding. As a result, if you want to use “solid backgrounds” and use the “background selector” you will notice **only a few backgrounds will “work”** and get activated. In order for the “background selector” to work properly follow these instructions:

Select the logo in your match you would like to use with the logo selector. After this navigate to the “panels/logo_selector” folder and rename this folder to something different example “logo_selector.old“. After this reload the skin, the “logo selector” will now still show the logo you selected in the game but because you changed the folder name clicking on the TV icon will not change anything anymore. The background selector will now work as intended for ALL BACKGROUNDS. (for reverting back obviously do the reverse and rename the folder name back)

- As in the 2022/2021 version the numbers/% in all screens have been recoded to show the “old” condition and match sharpness statistics instead of the (new) icons. I was able to also get these into the “match in between highlights” and “match mid match” and “match full match” review panels. As this code isn’t supposed to be there, the pop-up window when you hover over it doesn’t work (see screenshots below). The reason is that even in FM19 and FM20 the full stats weren’t even showing, only the condition%. My coding changed this, so this is also not a bug.

This works properly, as shown below, in the player tactics screens and team screens.

PKD	NAME	TOT/CMP	K. C.	TOT/CMP
GK	G. Doherty	11	72%	0
DR	S. Aurier	16	93%	1
DCR	E. Dier	18	94%	0
DCL	T. Alderweireld	18	94%	0
DL	R. Sessegnon	17	88%	2
MCR	T. Ndombelle	24	100%	2
MCL	G. Lo Celso	22	81%	3
AMR	Lucas Moura	9	77%	1
AMC	D. Alli	15	93%	4
AML	Son Heung-Min	25	72%	3

Thank you again for your support to my work and have fun playing FM 2023 and using my skin!

POSITIVES

- Happy with the 4-4-2 formation.
- Pleased to watch such entertaining football.
- We are pleased to see how well the team was pressing, especially with our view of how we will play football.
- We are pleased to see how good the team looked on set pieces, especially with our view of how we will play football.
- Pleased with the number of chances created.
- Pleased to have seen the team dominate possession.
- Impressed with how good the team looked in the final third.
- Happy to see the team win.

NEGATIVES

- The supporters are disappointed that Yannick Carrasco didn't play a part in the match after having a good game previously.
- The supporters are disappointed that Stefan Savic didn't play a part in the match after having a good game previously.

Atlético take on Sporting CP in European meeting

Club Atlético de Madrid S.A.D. 3rd in LaLiga Santander vs Sporting Clube de Portugal 3rd in Liga Portugal Bwin

UEFA Champions League
Estadio Wanda Metropolitano - Wed 5/10/2022 20:00

Top Spanish side Atlético's home advantage gives them the edge in what should be a close encounter against Portuguese league runners-up Sporting CP, according to WhoScored.com.

Atlético will be hoping to put together a strong run of early-season form to provide a solid foundation for the rest of the campaign.

Sporting CP are looking for a win to put themselves in a strong position to realise their ambitions.

Team News

Atlético will definitely be without Stefan Savić who has a thigh strain. De Paul is a doubt with a pulled calf muscle.

Sporting CP will definitely be without Jerry St. Juste who has a dislocated shoulder.

Almería 2 - 2 Real Madrid

The central midfielder opened the scoring as he applied the finishing touch to a good team move by scoring a fine header from point-blank range.
The Real Madrid central midfielder put in a superb performance for his side and will be delighted that he was able to cap his display with a goal.

JAMIE HARRISON

FW: LaLiga: Atlético secure victory at Estadio Wanda Metropolitano

I've attached today's match report from The Spanish Football Daily:

LaLiga: Atlético secure victory at Estadio Wanda Metropolitano

Attendance: 65,316

CLUB ATLÉTICO DE MADRID S.A.D. 1 - 0 GETAFE C.F. S.A.D.

Club Atlético de Madrid S.A.D. showed their superiority in a 1-0 victory over Getafe C.F. S.A.D. during their LaLiga Santander game at Estadio Wanda Metropolitano, but they could and should have scored more.

Flamboyant striker João Félix gave Atlético the lead with a well timed close range finish in the 61st minute.

In a low-key affair, the fixture was marred by a succession of fouls by Getafe, that prevented the match from ever truly getting into a rhythm.

Atlético maintained a high pass completion rate which allowed them to keep possession, and created a greater number of chances at goal.

Atlético have climbed above Valencia C.F. S.A.D. and Real Betis Balompie S.A.D. to 2nd in the LaLiga Santander.

Shots: 23/13 xG: 2.79/1.21 Possession: 64/36

Player of the Match: **Saúl** (Atlético) 7.9 Match Rating
8 - Progressive Passes

João Félix 61 Saúl 61

INTENSITY

TRAINING LOAD: **Low**

INJURIES: **1**

This is a fairly low level of training for the early stages of the season.

TRAINING PERFORMANCE
It has been a fair week overall in training. Most players have responded well to the sessions and seem to be enjoying themselves on the training ground.

Avg. Training Rating: **6.87**

BEST

Ángel Correa: **7.30**

Mario Hermoso: **7.25**

Saúl: **7.10** (Praise)

WORST

Ethyan: **6.35**

Yannick Carrasco: **6.35**

Sergio Reguilón: **6.35** (Critique)

TACTICAL FAMILIARITY
There have been a good number of sessions that proved beneficial to tactical familiarity.

3. Roger Ibañez
Defender (Centre) - Roma

28 Aug 2022
Sun 12:00

Overview Contract Transfer Development Reports Comparison History

Make Roma an offer for Roger Ibañez.

Roger Ibañez
23 year-old centre-back

WAGE €479K p/m
VALUE €32M - €38M
ASKING PRICE N/A

TRANSFER BUDGET €1.5M
WAGE BUDGET €15.04M p/m

As this would be an important transfer for the club, it might be appropriate to ask the Board to negotiate the transfer for you.

Roma's strong financial position means they do not feel pressured to sell him.
At the last calculation Atlético were under their FFP total by €82M. (UEFA Champions League)
Ibañez has a minimum fee release clause to clubs involved in major continental competitions of €41,000,000.
Atlético will pay €32,000,000 for Roger Ibañez.
Any agent fee or signing-on fee negotiated as part of the contract will affect the club's transfer budget.

Current Offer: Transfer Offer, Loan Offer, Negotiable, No Deadline, Immediate

Fee: €32M

Transfer Date: Immediate

ADDITIONAL FEES: + Add

Fitness tests

I have a quick report on the late fitness tests regarding the conditioning of three Atlético players ahead of the match against Real Valladolid C.F. S.A.D.

Saúl
Fitness test not required
Remains some way short of full fitness and should be monitored
Recently recovered from a pulled back muscle.

Koke
Passed fitness test
Recommended to be limited to a maximum of 45 minutes of action
Recently recovered from a groin strain.

Felipe
Failed fitness test
Not recommended to be selected
Recovering from a twisted ankle.

Medical Report

The medical team advise you that, whilst you are free to disregard this advice, you will increase the chance of aggravating existing injuries by selecting players who are not yet fully fit.
You are advised to also consider the match sharpness of the players who have passed their fitness tests when selecting the line-up.
